

## Manufacturer's Certification Statement for IRS Tax Credit

Sheffield Metals International's COOLR metal products coated with the following paint colors are specifically and primarily designed to reduce heat gain of a dwelling unit when installed on a dwelling unit and meet or exceed Energy Star program requirements. Thus any metal roofing panel system manufactured using Sheffield Metals COOLR colors, as listed by the Energy Star program is an Eligible Building Component qualified for the credit for non-business energy property under Section 25C of the Internal Revenue Code. To apply for this tax credit use IRS Tax Form 5695 (2011 version).

|                    |                         |                 |
|--------------------|-------------------------|-----------------|
| Aged Copper        | Evergreen               | Sandstone       |
| Antique Black L/S  | Evergreen L/S           | Seal Brown L/S  |
| Ash Gray           | Hartford Green          | Sierra Tan      |
| Burgundy           | Hemlock Green           | Sierra Tan L/S  |
| Burgundy L/S       | Mansard Brown           | Silver Metallic |
| Champagne Metallic | Matte Black             | Slate Blue      |
| Charcoal Gray      | Medium Bronze           | Slate Gray      |
| Colonial Red       | Patina Green            | Slate Gray L/S  |
| Colonial Red L/S   | Pre-weathered Galvalume | Solar White     |
| Copper Metallic    | Regal Blue              | Stone White     |
| Dark Bronze        | Regal Red               | Teal            |
| Dark Bronze L/S    | Regal White             | Terra Cotta     |
| Dark Gray L/S      | Regal White L/S         | Terra Cotta L/S |

A taxpayer may claim this credit with respect to the amounts paid for an Eligible Building Component only if the following criteria are satisfied: **1)** The component is installed in or on a dwelling unit located in the United States and at the time of installation the dwelling unit is owned and used by the taxpayer as the taxpayer's principle place of residence; **2)** The original use of the component commences with the taxpayer; and **3)** the component reasonably can be expected to remain in use for at least five years. The credit applies to property placed in service between January 1, 2011 and December 31, 2011 may be eligible for a tax credit worth 10% of the material cost (excluding installation costs) up to \$500 per home.

**This is a summary of the tax credit and it is not intended to be tax advice. Sheffield Metals International strongly recommends that you consult a tax professional for its applicability to your situation.**

Under the penalties of perjury, I declare that I have examined this certification statement, and to that best of my knowledge and belief, the facts are correct, complete and true.
